Travel itinerary

Arrival

Martinique Aimé Césaire International Airport (FDF)

Please remember to book your flights separately. Plan your arrival so that you will arrive at the airport by noon to meet your crew in the afternoon.

Day 1

Welcome onboard!

Self-arranged transfer: approx. 15km und 20 min

Welcome to Martinique! You will meet your skipper and your crew in the marina and together you will buy everything you need for the coming days. Afterwards you can relax in your cabins and get to know each other at the first dinner in the restaurant. Here you can tell the skipper your wishes and ideas and you all plan together your upcoming sailing trip, according to your mood and the weather situation. Accordingly, please also note that the itinerary mentioned here is only an example.

Day 2

Set the sails!

Today the sailing adventure really starts! After a short briefing by the skipper, it's time to cast off in the direction of the island of St. Lucia. Here we will set anchor in Margiot Bay and let the evening end comfortably.

Day 3

Local markets and maritime cuisine

The sailing continues to Port Vieux Fort in the south of St. Lucia. From unique local markets to an unforgettable insight into the local maritime cuisine, there is much to experience. Depending on our mood, we can still visit the small nature reserve Maria Island.

Day 4

Volcano on St. Vincent

Our destination today is the breathtaking nature on the island of St. Vincent. We can admire the 1467 meter high volcano from a distance. The protected and at the same time beautiful bay on the south side offers the optimal overnight spot.

Day 5

Snorkeling in turquoise water

Pure relaxation is on the agenda today. After a first morning swim and a leisurely breakfast we sail a short distance to the Tobago Cays. Here we look for a particularly calm lagoon between the island groups. The waves are held back by the numerous coral reefs and we can marvel at the colorful underwater world while snorkeling in the turquoise water.

Day 6

From paradise to paradise!

From the paradise of the Tabago Cays, today we go to the next paradise to the harbor in Clifton. There we walk to the famous viewpoint and enjoy the view over the bay. After we have cooked the last days ourselves, we consider to be spoiled today in the sweet small town of Clifton.

Day 7

We let ourselves drift

Our destination today is the sister island of Grenada: Carriacou. We will end the relaxed day on the yacht comfortably with a joint dinner and your favorite drink in hand.

Day 8

On the tracks of Pirates of the Caribbean

Cast off and be ready for some sporty sailing action. After the last very relaxed days, we will be active today on the further stretch to the pirate island Petit Tabac. This island is the setting in the movie "Pirates of the Caribbean" and definitely worth a visit.

Day 9

Beautiful lagoons

We sail back to the wonderful area of the Tobago Cays, because there is still so much to discover. According to our mood we decide today what we want to do. Maybe we want to sail into the beautiful lagoon of the Tobago Cays and enjoy the evening together with home-cooked food and good music.

Day 10

Infinite island beauty

Today we are going to an island that we haven't visited yet, but that will change quickly. We sail to the island of Mustique, which is a popular place due to its beauty and the visit of prominent personalities. So off we go to the island! Tonight we are going to have a good time in a restaurant and enjoy the fantastic view over the bay. The evening is still young and whoever feels like it can still visit one or the other bar.

Day 11

The streets of Port Elisabeth

This morning we take our time to explore the island of St. Vincent. To cool down we jump into the turquoise water and rest under the palm trees before we sail on. There is only a short sailing distance to Bequina. Here we go ashore and stroll through the streets of Port Elisabeth. Let yourself be fascinated by the Caribbean flair with colorfully painted wooden houses and a multitude of palm trees. We spend the evening in a small restaurant and taste the regional delicacies.

Day 12

Day on land: Discovery tour

Another day on land is coming up, but today on the island of St. Vincent. There are many possibilities to spend the day, for example in the botanical garden in Kingstown or with a short hike to the old surveillance point. There you have a wonderful view over the island and coast. To discover even more nature, the Vermont Nature Trail is the right destination. A trail through the jungle with exotic animals. As you can see, there is a lot to experience. After such an exciting day we let it end very relaxed in one of the bars or restaurants!

Day 13

Last chance to explore the island life

And if we didn't manage to do everything we wanted on the island of St. Vincent, we just use the next day. After all, we all have a vacation! Who has not yet danced, should finally do so!

Day 14

Festive dinner

The last sailing day is coming up and we enjoy it again to the fullest. Even before the leisurely breakfast we have the opportunity to swim and snorkel, what a great start to the day! Afterwards we sail to our starting port in Martinique. A wonderful trip comes to an end and we finish it with a last dinner together.

Day 15

Goodbye paradise!

Self-arranged transfer: approx. 15km and 20 min

Unfortunately, it's time to say goodbye to the Caribbean paradise. We leave our yacht behind and you make your way to the airport to catch your flight home or your next destination.

Departure

Martinique Aimé Césaire International Airport (FDF)

You can flexibly plan your return or onward flight on the day of departure. We would be happy to welcome you back for the next unforgettable adventure!

Your Guide: Marcus

Hello, I am Marcus and I will be skipper for your adventure in the Caribbean. I love sailing. I enjoy being carried by the wind to faraway places and experiencing every single meter up close. I love experiencing foreign countries and cultures and discovering new things on familiar shores. I always try to really "be there" where I am. I succeed best on board. I take my job as skipper very seriously, without taking it "too" seriously. A skipper must guide the yacht and crew safely through all eventualities at all times. Clearly, safety is the top priority. But fun must not be neglected. A good skipper not only needs comprehensive knowledge of nautics, seamanship, mechanics, electrics, meteorology and psychology - but above all he needs patience, endurance, humor and cooking skills. I am looking forward to introduce you to the world of sailing and to accompany you on your journey through the Caribbean Islands.
